Children and Youth Living Below Poverty

number and percent children/youth ages birth-17 years (2018)

**Why This Matters:**
The poverty rate measures the percentage of children living in families considered to have too little income to meet basic needs. Poverty in childhood is associated with a wide range of social, educational, health and future employment problems.

Children are considered to be living in poverty if their family income, before taxes, falls below the poverty thresholds set by the federal government for families of different sizes.

**Data Provider:**
NYS Office of Temporary and Disability Assistance

**Data Source:**
