**4-Year Cohort HS Graduation Rate - All students**

number and percent students in freshman cohort (2017/18)

- **Why This Matters:**
  The four-year cohort graduation rate follows students from the fall of their freshman year to the end of their fourth year in high school in order to determine the percent of students graduating with a regular diploma within four years.

  High school graduation is the culmination of a successful K-12 education and the gateway to college or employment. Students who do not graduate face the prospect of unemployment or low-paying jobs.
