KWIC View

4-Year Cohort HS Dropout Rate - All students
number and percent students in freshman cohort (2017/18)

Why This Matters:
Students who do not complete high school are especially vulnerable since they have far higher unemployment rates than high school graduates. When employed, they earn less, are more likely to be in semi-skilled manual jobs and work at jobs with poorer working conditions and benefits.

The social, economic and personal costs include foregone tax revenues, decreased productivity, increased demand for and reliance on social services, reduced political participation and generally poorer health.

Data Provider:
NYS Education Department

Data Source:
NYS Education Department; Office of Information; Reporting and Technology Services
