**Student ELA Performance - Gr. 4 - All students**

number and percent at or above Level 3 (2018/19)

**Why This Matters:**
Student skills are assessed in English Language Arts (ELA) in grades 3 through 8. Student ELA performance in grades 3 and 4 is particularly important since students’ ability to read at grade level in grade 3 is related to other important education outcomes, including graduating from high school on time.

ELA tests are used to determine accountability for schools and districts. The assessments are based on state learning standards.

The tests are intended to help improve teaching in classrooms and focus instruction on the needs of each student.
